RETHINKING
RETHINKING
BORDERS

DYNAMICS IN
A CHANGING
WORLD

2 – 28 November 2021

Registration Deadline: 20 October 2021

Background

Due to COVID-19, DREaM 2021 will be conducted virtually while still adapting to the existing DREaM content that has been implemented for the last twelve years. The theme of the Virtual DREaM 2021 is Rethinking Borders: Dynamics in A Changing World. The world is facing a new era in which borders matter more and dictate movement across the globe.

With the changing perception of borders brought by the COVID-19 pandemic, it is necessary to review the understanding of borders. For this reason, the Virtual DREaM 2021 will present interesting discussions and conversations about borders from various perspectives and disciplines ranging from history, current understanding to predictions of border dynamics in the future. The participants will be involved in a series of discussions, exchange ideas, and learn about various experiences in dealing with the challenges of border dynamics that usually arise.
