Integrated Science Program

The Integrated Science Program at Hokkaido University provides students with a wide scientific knowledge, and is taught in English to prepare graduates for professional careers on an international scale.

HOW TO APPLY

Online Registration
in Fall

Submission of
Application Materials
by Post

Online Interview

INTERNATIONAL STUDENT SUPPORT

International Student Support Desk

We provide a support desk staffed with international students. If, for example, you have trouble reading Japanese documents, or do not understand procedures at the ward office, the support desk is happy to help.

Counseling

A bilingual counselor offers advice regarding difficulties you may have such as adjusting to life in Japan, academic studies, and career guidance for your future after university.

Accommodation

Rooms in university owned dormitories are offered to ISP students in their freshman year. These include social communal areas, kitchens and washing amenities. Although Sapporo is ranked in the top 3 cities in Japan to live, the cost of living is especially low for a city of its size.

北海道大学
HOKKAIDO UNIVERSITY

Key Characteristics

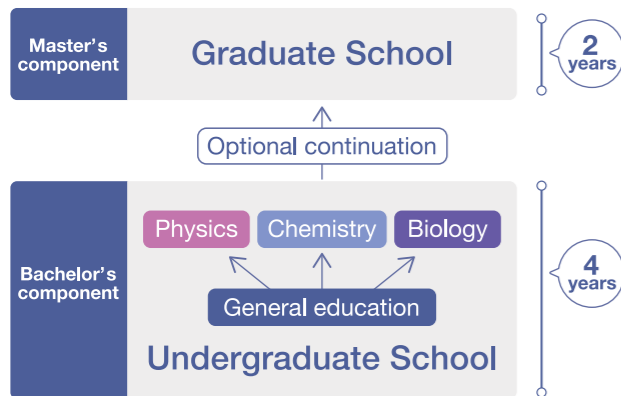

Study at one of Japan's oldest and most prestigious universities

English language course taught by a diverse international faculty

A range of scholarships available

Course Structure

The program fundamentally consists of a four-year Bachelor's degree and a two-year Master's degree. The latter of which will include an active research component, where the students will be affiliated with one of the university's prestigious graduate schools to learn the techniques and skills to flourish as scientists or researchers in, or out of academia. With Hokkaido University's advanced graduation initiative, we offer the opportunity for highly motivated and capable students to graduate from the Bachelor's and Master's components in 3.5 and 1.5 years. This gives a combined course of only 5 years, which is shorter than most Japanese universities, giving graduates the edge in an ever competitive job market.

Faculty Members

ISP Coordinator (Physics)

Osamu Seto

Are you interested in the Integrated Science Program (ISP)? This is the first cross-disciplinary educational science Bachelor degree program at Hokkaido University for international students. Of course, you can proceed to study further in the Master's program. In this program, students will study a wide variety of natural science subjects as well as a subject of your major field to study among physics, chemistry and biology. All education will be provided in English by our international faculty. We look forward to studying science with you.

Integrated Science Program

Program Details

The Integrated Science Program is a cross-disciplinary educational science program for international students interested in pursuing a degree in the natural sciences. The program's strong cross-disciplinary nature aims to give students an excellent broad scientific education across the core scientific disciplines (biology, chemistry, and physics) in School of Science, while allowing them to specialize in their chosen fields in later years in accordance with their own interests. While students' main scientific studies are entirely in English, a multitude of additional courses such as business skills courses or leadership and management skills courses will be available in the liberal arts and Japanese language to ensure students receive a rich and fulfilling education while at Hokkaido University.
